Art Unit

- 1. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.
- 2. Claim 21 is rejected under 35 U.S.C. § 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicants regard as the invention. More particularly, the Examiner again must reject the terminology found in claim 1 "comprises a material selected from" as being inconsistent in utilizing an open end term followed by a Markush grouping. Applicants argue (Response, page 5, paragraph 7) that they have "amended claim 21 accordingly". However, adding the phrase --the group consisting of-- simply completes the traditional Markush language and does not deal with the substance of the Examiner's rejection, which is hereby repeated.
- 3. Claims 1-22 are rejected under 35 U.S.C. § 103(a) as being unpatentable over Babu et al. taken in view of either Davison or Hansen et al., substantially for the reasons set forth in paragraph No. 3 of Paper No. 5, together with the following additional observations. With respect to the amendment to both independent claims 1 and 12 stating that the maleated rubber "comprising elastomer portions having a glass transition temperature" the Examiner respectfully submits that such thermoplastic elastomers as styrene-ethylene-butene-styrene (S-EB-S) block copolymer elastomers inherently possess glass

Serial No. 10/014,625 Art Unit 1771

transition temperatures, which is all applicants' claim requires for this element. With respect to the additional amendment of claims 1 and 12 that the "resin that raises the glass transition temperature of the elastomer portions of the maleated rubber" is also an inherent property of each of the secondary references that has been relied upon by the Examiner. Additionally, note that applicants' specification at page 7, lines 3-9 indicates that such resins as hydrocarbon resins clearly possess this newly claimed inherent property. Finally, what other parameters that may exist are each believed to be, if not expressly or inherently disclosed in the relied upon prior art combinations are each believed to be obvious modifications to one of ordinary skill, in the absence of unexpected results.

4. THIS ACTION IS MADE FINAL. Applicants are reminded of the extension of time policy as set forth in 37 C.F.R. § 1.136(a). The practice of automatically extending the shortened statutory period an additional month upon the filing of a timely first response to a final rejection has been discontinued by the Office. See 1021 TMOG 35.

A SHORTENED STATUTORY PERIOD FOR RESPONSE TO THIS FINAL ACTION IS SET TO EXPIRE THREE MONTHS FROM THE DATE OF THIS ACTION. IN THE EVENT A FIRST RESPONSE IS FILED WITHIN TWO MONTHS OF THE MAILING DATE OF THIS FINAL ACTION AND THE ADVISORY ACTION IS NOT MAILED UNTIL AFTER THE END OF THE THREE-MONTH SHORTENED

Serial No. 10/014,625

Art Unit 1771

STATUTORY PERIOD, THEN THE SHORTENED STATUTORY PERIOD WILL EXPIRE ON THE DATE THE ADVISORY ACTION IS MAILED, AND ANY EXTENSION FEE PURSUANT TO 37 C.F.R. § 1.136(a) WILL BE CALCULATED FROM THE MAILING DATE OF THE ADVISORY ACTION. IN NO EVENT WILL THE STATUTORY PERIOD FOR RESPONSE EXPIRE LATER THAN SIX MONTHS FROM THE DATE OF THIS FINAL ACTION.

5. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Daniel Zirker whose telephone number is (703) 308-0031. The examiner can normally be reached on Monday-Thursday from 8:30 A.M. to 6:00 P.M. The examiner can also be reached on alternate Fridays.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Terrel Morris, can be reached on (703) 308-2414. The fax phone number for this Group is (703) 872-9306.

Any inquiry of a general nature or relating to the status of this application or proceeding should be directed to the Group receptionist whose telephone number is (703) 308-0661.
